## THEMATIC SEMINAR

# Biowaste treatment – Challenges and Opportunities

Biowaste is the biggest share of municipal solid waste and a large quantity is still landfilled, releasing pollutants and greenhouse gases.

This seminar intend to answer to main questions:

**How can the actual situation be changed?**

**What are the real obstacles and the appropriate solutions ?**

**Is organic agriculture a real priority and how can be farmers supported to increase the compost utilization?**

Through good practices example, efficient policies and study cases, we will bring under discussion the necessary measures to improve the biowaste management and how can contribute to circular economy.

### Participants:

- ✦ European Compost Network (ECN), Romanian Compost Association
- ✦ Ministry of Environment, Ministry of Agriculture
- ✦ IDAs, waste management operators
